COAL DEAL.

Facts About the Recent Western Kentucky Purchases and Ownership.

The North American Co. will Secure Entire Capital Stock of West Kentucky Coal Co.

So much has been put into print in the daily press recently about the transfer of coal properties in Western Kentucky to The North American Company, the soul of which company, the dispatches tell us, is the wealthy and widely known New York capitalist J. Pierpont Morgan, that a glimpse at rock bottom facts will prove interesting. The Bix has made special effort to get these facts, now presented to our readers.

The properties that have been absorbed by the North American Co., are the mines and equipment of Tradewater Coal Co., of Sturgis, the United States Gas & Coal Co., of Sturgis, the Wheatcroft Coal Co., of Wheatcroft, the Baker properties in Webster county near Dixon, and various coal rights swelling the total acreage in lands and mining rights to about twenty-five thousand acres.

The Wheatcroft deal is the last to be consummated and there has been denial that this sale made, but it can be stated with excellent authority that Wheatcroft mine has been sold for and will come into the hands of the North American in due time.

Various large figures have been used as the marks at which these different properties have changed hands, all of which have been more or less guess work. For instance, the Wheatcroft deal is quoted all the way from \$100,000 to \$300,000, the latter figure, if authentic, said to include river equipment and elevators at various Ohio and Mississippi river points. It is a safe proposition that all such speculation as to values in such transfers are generally without authentic information and often wide of the mark. It seems most likely, however, that The North American Co., has paid very good prices for the properties they have acquired. What appear to be the most authentic figures are Tradewater Coal Co., \$400,000; United States Gas & Coal Co., \$600,000; Baker properties, \$100,000; Wheatcroft, \$100,000. The properties bought include the coal elevators at Paducah and Memphis, and the towing equipment of the United States Coal Co. It is the purpose of the West Kentucky Coal Co. to ship coal by river, thus opening markets not now attainable by railroad transportation.

These properties have been bought for and held by one company instead of two or three companies, as some published reports have said. This purchasing company is The North American Co., of New York, in the directors of which company appears the name of Robert Bacon. Mr. Bacon is one of J. Pierpont Morgan's partners in the banking business and this fact has given rise to the widespread connection of the name with these ventures. Whether Mr. Morgan is actually interested

in these Western Kentucky coal operations will probably remain, as it is now, a guess.

The West Kentucky Coal Company has been organized under control of the North American Co., and will take over and operate all these properties purchased by the latter company. The following dispatch from Wall Street gives detailed information of the transaction and shows the connection of the two companies.

Five Hundred Thousand Dollars And Thirty-Two Per Cent Bonds.
New York, July 31.—It was learned today that amount invested by North American Co. in purchase of 20,000 acres of coal lands in Western Kentucky is \$500,000. For this the company will secure entire capital stock of West Kentucky Co., organized to assume ownership of the property. In addition to capital stock there will be a thirty-year 5 percent bond issue of more than the amount of the capital stock. It is understood that arrangement have been completed for sale of bonds to banking interests close to the North American Co. These may be a public offering of the bonds later.

The North American Co. is incorporated under the laws of New Jersey, organized to "engage in railroad and general financing and promote street railway and electric light and power enterprises." Its capital stock was originally \$500,000, which was subsequently reduced to \$125,000 but later increased to \$175,000. This last increase in stock was for the purpose of purchasing the stock of the Laclede Gas Light Co., of St. Louis, and was made in March 1903. The North American Co. also controls the Union Electric Light and Power Co., of St. Louis, and, through the same plan of stock ownership, other such properties at Cincinnati, Milwaukee, Detroit and elsewhere.

It is the declared purpose of the West Kentucky Coal Co. to ship a large portion of its output by river to St. Louis for use in the gas and electric plants controlled by The North American Co. Two coal fields have already been sold to St. Louis. Some coal men of wide experience question the practicability and the profit of shipping by river to St. Louis but the new company is starting out to make a thorough test of the matter, and the question of its practicability must wait in the public mind the results of this test.

HELD BY SLUGGERS

Non-Union Men Believed to Have Been Brutally Tortured in Chicago.

Former Army Officer Captive for Three Weeks Bears Proof of Violence Committed by Thugs.

Chicago, Aug. 1.—Apparent evidence that labor sluggers maintain in Chicago a place where systematic torture is meted out to those incur the displeasure of the sluggers has just come to light in the case of William H. Wilder.

Wilder was formerly an army officer, and at the time of the recent teamsters' strike was claim agent for a Chicago package express company. He disappeared July 6, and was held captive for three weeks, and was then set at liberty, half starved and so dazed that he has not been able to give a coherent account of his captivity. He was found by a friend wandering aimlessly about near the Union Station at Canal and Adams streets and was taken to his home at Downers Grove.

Physicians pronounce his physical and mental condition such that he may not recover. Much of the time he raves wildly and, as though still under torture, begs for mercy. Marks all over his body show that he had been bound with heavy cords. Over a hundred dollars he is known to have had on his person.

Wilder is an Englishman who saw service in the American army in Cuba and in the Philippines and held a commission as a second lieutenant in the regular army. He is a bold, outspoken man of thirty-seven years of age, who gloried in his physical ability to take care of himself and defied pickets or eleggers to intimidate him.

Fugate Moore.

Mr. Will Fugate, of the Bethlehem neighborhood, and Miss Jessie Moore, of the Grapevine vicinity, were quietly married Sunday afternoon at the residence of Elder S. F. Fowler in Madisonville by Elder T. D. Moore, of Hopkinsville. The bride is the daughter of Elder W. H. Moore and is an estimable and popular young lady. Mr. Fugate is a farmer and is possessed of many excellent qualities. Their many friends wish them all happiness.

New Plan.

The Burley tobacco growers, after months of labor, have evolved a plan which they think will place them beyond the reach of the tobacco trust. A new company, with a capital stock of \$1,500,000, has been organized and a committee appointed to apportion the stock among the Burley producing counties in the district. The new company will act as buying and selling agents for the farmers.

Escaped Murderer Captured.

Hopkinsville, Ky., July 28.—Claude Dixon, the murderer of Matthew Sumner, who, with several other prisoners, escaped from the Trigg county jail at Cadiz last January, has been captured by officers of the law near Horn Lake, DeSoto county, Miss., and has been returned to the county jail at Cadiz by Sheriff Bud Hramoud, of Trigg county, who went to Horn Lake after him.

FOUND DEAD.

Mrs. Luster, Wife of the Telephone Manager at Guthrie, Found in Her Room Dead—Husband is Missing.

The mystery surrounding the death of Mrs. Ella Hill Luster, who was found dead in her room at Guthrie a few days ago, is no nearer solution than it was when she was found. The whereabouts of P. J. Luster, her husband, is shrouded in equal mystery. The police have made a search of the surrounding country and have even dragged nearby streams, but without finding the slightest trace of the missing man.

Shortly after the finding of the body of Mrs. Luster, an inquest was held by Coroner Bruce, County Attorney J. R. Maloney assisting. The verdict of the jury follows:

"We, the undersigned jury, appointed to inquire into the cause of the death of Mrs. Ella Hill Luster, do hereby find that she came to her death by a pistol or gun wound in the hands of some unknown person."

An investigation of the Luster home showed that the utmost care had been taken to prevent early discovery of the crime. Every door was found to be locked and the keys were thrown away. The windows were tightly nailed down and into the telephone receiver had been packed paper, so that no possible sound could reach the central office.

The following was sent out from Guthrie Monday:

Although no positive clue has been discovered as to the whereabouts of Percy J. Luster, whose wife was found murdered in their home, thorough search of the house has revealed two railroad guides of lines in Mexico and Canada, and it is the general belief here that he has started for one of those countries.

He could, it is believed, have easily gotten out of town without creating any comment, as he was accustomed to take an early train in going to Trenton, where he had interests.

Burglars Visit Earlinton.

Burglars entered the residence of Ed Cunningham Friday night and carried off his best shoes. On the same night and the night after the light fingered gentry forced an entrance into the residences of L. H. O'Brien, E. L. Wiso and J. W. Robinson. At Mr. Robinson's Miss Minnie Goodell, the trained nurse, was sitting up with Mrs. Robinson who was ill and discovered the intruder just as he was coming in the window. He was frightened away without obtaining anything. The ones who entered the houses of Mr. O'Brien and Wiso were also frightened away before they had time to collect any valuables. It is supposed these thieves were on their way to the Madisonville fair and attempted to do a little business in Earlinton while passing through.

Mr. and Mrs. Warner Entertain.

Mr. and Mrs. Warner entertained Saturday evening a number of the young people in honor of their charming guest, Miss Warner, of Nashville. This was one of the most pleasant social affairs of the season. Nothing was left undone for the enjoyment of the guests. Dainty refreshments were served.

MILITARY.

Kentucky State Guard Going Soon to Annual Encampment at Paducah.

Company G Will Leave Home Saturday, August 26, and Will Be Gone Eight Days.

Arrangements have been completed for the annual camp of instruction for the Kentucky State Guard to be held at Paducah, beginning on August 7th and closing on Sept. 2nd.

General orders have been issued to the commanders of the regiments regarding the moving of the men under them to the camp, and regulations while there. The troops will be reviewed by Gov. Beckham, on which review days he will be accompanied by the members of his official staff. The review days of the Second regiment has been fixed for August 11. The Governor will visit the camp again on August 24 to review the First regiment troops, and will remain in the camp until the 28th to review the Third regiment.

Adj. Gen. Haley and Col. Gainer, the Inspector General, expect to have the best equipped camp ever held by the guard. First Lieutenant David Y. Beckham, Artillery corps, United States army, brother of Gov. Beckham, has been detailed by the War Department to give instructions to the troops while in camp, and will remain there during the entire time of the encampment. A signal corp will be stationed at the camp under the command of Capt. Donaldson, of Frankfort, Ky., and will demonstrate the use of the telegraph, telephone and wireless telegraphy as used during actual warfare. Rifle ranges will also be established for target practice by the troops.

Separate orders were issued last week regulating the movement of troops from their homes to the camp of instruction. Under these orders the Second Regiment will be in camp first, from August 7th to the 14th; the First Regiment will go second and will be in camp from August 17 to the 24th and the Third Regiment, to which Co. G belongs will go last being in camp from Aug. 25th to Sept. 2nd.

The local military company, Co. G, will leave here at 10 o'clock a. m. on Saturday, August 20th, for Nortonville and will leave there at 1:15 p. m. over the Illinois Central Railroad for Paducah arriving there about 5 o'clock in the afternoon. On returning they will leave Paducah on the night of Sept. 2 arriving here early Sunday morning, Sept. 3rd. It is thought that the result of the inspection held here several months ago will be announced during the encampment.

Did you ever stop to think of it? Many rich people are poor in this world's pleasures.

A Fool and His Money.

The Good Book says "A fool and his money is soon parted." Such being the case in a brief space of time "Scotty" of special train fame won't have a red cent. In the language of the immortal Bill Nye, "a fool has come out of the West." His name is Walter Scott not he of novelistic fame, however, but a miser from the dreary waste of Death Valley, where he claims to have a gold mine of inexhaustible richness. Scott recently paid \$9,000 for a train that could make fast time across the continent and afterwards visited New York where he out Carnegie in attempting to separate himself from his wealth. This week he visited Cincinnati and did "Coal Oil Johnny" stunts that astonished the natives. He purchased vast quantities of champagne for every one in sight and there were a number always in sight. This kind of business will be of short duration and in the cold gray dawn of the sweet subsequently Scotty is going to wake up not famous as he fondly hopes, but broke, dead broke.

LOCAL COAL OPERATIONS

HURT BY YELLOW FEVER.

Scarc Causes General Demoralization of Business in the South.

COAL MAN SAYS ORDERS AFLECTED.

To one who measures influence by miles of space the statement that the yellow fever scare in New Orleans has had and is having its effect upon the coal business of Hopkins county, Kentucky, would seem like a dream of the pipe. Nevertheless, the facts justify the statement and the conditions are such now that the business interests of this county are today sustaining a loss through the falling off in orders to the coal mine operators, directly because of the yellow fever at New Orleans. The effect here is only temporary, of course, but any decrease in coal orders at this season of the year is felt more keenly by the operators and miners, because the coal business is normally of the minimum volume.

An operator on the Illinois Central railroad and yesterday that business south of Memphis was more or less generally demoralized because of the yellow fever, the quarantine regulations and the fear that the disease might spread beyond New Orleans. Most of the coal that goes from Hopkins county to Memphis, he said, goes through the wholesalers to points beyond, and this is the trade that has fallen off. This is true, both as to coal shipped to the railroads and for general use. The railroads are hampered in their efforts to get labor to handle coal at the stations where they store large quantities. Hence their orders are also curtailed.

The authorities at New Orleans cheerfully assert through the dispatches that they are surely getting the disease under control and the rest of the world is waiting hopefully.

An exchange pertinently remarks: A couple of weeks ago Collier's Weekly took the newspapers to task for advertising patent medicines. In its columns were noticed in the issue a page advertisement of Schlitz's beer and an advertisement of "Hutter's Rye" "a fine aged whiskey." Well, between the two we believe the patent medicines are less harmful, and they don't raise you as much hell at least. Before it takes us to task it should first clean its own skirts.

Did you ever visit a local telephone exchange? If not you should do so and see how much work the operator at the switch board has to do and how busy she is at times. Possibly if you would do this you would be more patient and less ready to find fault when the service is not prompt enough to suit you. Work as fast as she may there are times when it is impossible to attend to all the calls that come in. Then there are some people who expect to get their own way in information and expect the operator to be able to answer any and all questions asked. Some people when asking for a number command the operator to give them numbers and so, with where there is no need to call for a number and follow the request with that magical little word, "Please."

While on the way to the bathhouse the other afternoon, we passed a house from which came the strains of soul stirring music from a piano and a sweet song from the throat of a certain young lady. The only distinguishable words from the song were "dear old mother," "dear old mother." Passing on and turning the corner down a side street we saw through the kitchen window the dear old mother with her arms bared to the elbow making up bliscuit dough for supper, while the perspiration streamed down her wrinkled face and the steam from the range ran the temperature of the room up to 108. She was singing "We'll work till Jesus Comes" and "Rest, Sweet Rest."

SLOT MACHINES MUST GO.

Says Sheriff of Henderson County—Mandate Creates a Stir.

Henderson, Ky., Aug. 1.—Sheriff S. A. Young, who a few months ago was appointed Sheriff to fill the vacancy occasioned by the resignation of Henry Dixon, gave out printed notice today that he would strictly enforce the law as to slot machines as well as any other gambling devices, according to the law laid down in the Kentucky statutes. His proclamation has created quite a stir among the machines that maintain such machines. Some months ago the machines were ordered out by Chief of Police Henry, but after he resigned the machines were again installed.

Rev. Abbitt will preach at the Library next Tuesday evening at 7:45 o'clock.

BIG FAIR

To be held at Guthrie This Month—
Only Mile Track in Western Kentucky.

There will be no fair at Bowling Green, Ky., this year. The states of Missouri and Tennessee having stopped pool selling on races, brings the Kentucky and Tennessee Fair at Guthrie, Ky., this year greatly in demand, and the prospects for the greatest fair ever held in that part of either state is bright and promising. Demands for catalogues and entry blanks are coming in not only from the states of Kentucky and Tennessee, but from the states of Indiana, Illinois, Missouri, Alabama, Louisiana, Georgia and Virginia.

The mile track is in record breaking condition, having been specially prepared, at great expense, by an experienced track and high class horseman.

A number of noted pacers and trotters are now quartered in the stables on the fair grounds.

The Kentucky and Tennessee Fair Association belong to the Southern Fair Circuit, and gained a big advantage to its many patrons by being the first to give an exhibition this season.

The dates of the fair are August 17, 18 and 19. The first day being "Dark Tobacco Growers Day," will bring together the largest crowd ever seen at the Guthrie Fair Grounds. The Association have offered liberal premiums on tobacco and arranged for some noted speakers to be present to address the tobacco growers on the evils of the trust and the necessity of the farmers standing together as one man in this great fight, which means either prosperity or starvation to the thousands of honest farmers in the "Black Patch."

Special arrangements have been made with the L. & N. for reduced rates.

TENTS ARE ERECTED

Encampment Site at Paducah—Signal Corps Men Have Arrived.

Paducah, Aug. 1.—Scores of tents will be strung on the Wallack Park camp site by Wednesday, and after that detail dinners will be served. A detachment of the Signal Corps, numbering fifteen men, under command of Capt. Harry Donaldson, of Frankfort, will arrive Wednesday morning and will remain during the encampment. The signal service men will string all the telephone and telegraph wires and arrange for the signal service, and will also have supervision of the erection of the tents. Col. Noel, Gaines, Inspector General; Col. Harry Tandy, Quartermaster General; Col. Mott Ayres, Paymaster General, of Frankfort; Col. A. T. McCormick, Medical Inspector, of Bowling Green, and Capt. Frank D. Rash, of Earlington, have arrived in the city and have been at the park all day making preparations for the encampment.

People Made Famous by The News

PRESIDENT CASTRO

RESIDENT CASTRO of Venezuela has not exempted the saying that one good turn deserves another in his relations with the United States. During the presidential term of Grover Cleveland this country did Venezuela a great service in connection with the settlement of the boundary dispute with Great Britain. When Castro's government was in serious trouble with foreign powers three years ago the United States saved it from a drubbing at the hands of Europeans by having the dispute referred to The Hague tribunal. The Venezuela dictator has returned these favors by refusing to submit to arbitration the controversy between his government and the New York and Honduras Asphalt Company, thereby straining the friendly relations between Venezuela and the United States.

Since Castro won the presidency of Venezuela in 1959 by gaining a successful revolution his peculiar methods have made him a conspicuous object in world politics. On one occasion, it is said, his soldiers reported to him that three rich Caracas merchants were hoarding gold in their homes. General Castro ordered that each of these men be taxed \$50,000 for "support of the government." On their refusal to pay they were tied to stakes so that they had to face the sun all day and at night a fiercely bright electric light. Half blinded and almost crazed by their sufferings, they at last yielded and paid the "tax." When Assistant Secretary of War Leonard was minister to Venezuela he once represented to Castro that the latter's conduct toward the asphalt company was not such as to encourage investment of American capital in Venezuela. The dictator replied:

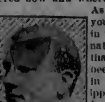

"Well, Mr. Leonard, those American people are getting very excited. Take them to a saloon and give them some ice cream to cool them off."

In the present crisis in the affairs of Russia it is said that the czar has been heavily upon his mother, the dowager empress, Maria Feodorovna. She has always exercised a powerful influence over her son and in affairs of state has often persuaded him to accept her views against his own judgment and inclinations. For the most of her life the dowager empress has lived in an atmosphere of apprehension and terror. Her own life has often been threatened.

Her husband, Alexander II, was killed by a bomb in 1881. As a natural consequence of the violence of his father's death Alexander III, on coming to the throne, instituted a repressive policy, was in constant fear of assassination and lived virtually a prisoner in his palace. The circumstances of her life have not been such as to develop the gentler and more womanly side of the character of the dowager empress. She has become an enemy of reform and is considered the heart and soul of the reactionary element surrounding the czar. She was the daughter of Christian IX, of Denmark and is a sister of Queen Alexandra of England, but has none of the latter's sweetness of disposition. She was the Princess Maria Dagmar before her marriage to Alexander III, Nov. 9, 1863, and was baptised into the Greek church as Maria Feodorovna. She is in her fifty-eighth year and is still a well preserved and handsome woman.

Captain Harry Leonard, who has been ordered to Paducah as military attaché of the American legation, is as gallant as he is handsome. Many persons who attended the Pan-American exposition at Buffalo in 1901 noticed a one armed officer in charge of a detachment of marines at the United States government building and wondered how and where he had been.

As he was too young to have been in the civil war they naturally inferred that it must have been shot off either in Cuba or the Philippines. Captain Leonard has fought in his legion at Manila, that he was a "cholo," During the "cholo" period, that when the

CAPTAIN HARRY LEONARD. He was severely hurt, but it is said the revolutionist would have killed him if it had not been for the fact that the bomb was thrown behind instead of directly underneath the carriage. Baron von Nolken, who was sitting on the side nearest the assailant, received the full charge of the bomb, while his companion escaped unhurt. The coachman was thrown from the box, and the carriage was smashed. Meanwhile the police official accompanying Baron von Nolken saw the bomb thrower and pushed and caught up with him, but the man proved the stronger and ran away.

to the rear through the fire of the enemy and succeeded in his task, being praised for his conduct by the English general. He-enforcements were badly needed in another part of the field, and Captain Leonard volunteered to take them there. The movement was made over swamps, burial mounds, a canal and a mud wall under heavy fire from the Chinese. Captain Leonard was leading his men when a rifle ball shattered his arm. Two officers undertook to assist him in getting to the rear. The Chinese fired at the three men persistently. During the dangerous journey Captain Leonard forded the canal, in which the water came up to his chin, shoved bodies of dead Chinamen out of his way and scaled a wall ten feet high. As he dropped on the other side a conscious relief came. Several days later his arm was amputated.

During his recent trip to New York Governor Joseph W. Folk of Missouri told the following story:

"There was an old fellow—a Democrat—who was in danger of losing his sight. About two weeks after the recent election the doctor said to him: 'Now, look here! You are going to lose your sight unless you stop drinking!'"

"On his way home his fellow met one of his friends and said: 'The doctor told me if I did not stop drinking? He said I would go blind.'"

"Well, what did you say?" asked the friend.

"I said, 'I have seen Missouri go Republican, and I guess I have seen about all I want to see anyway.'"

Fire Chief Croker of New York tells a story about a fireman with a long and honorable record who died in the service. He had many friends, and his funeral was an elaborate one, especially as to flowers. The place of honor, however, was given to an elaborate emblem, a reproduction some four feet high of a fireman's badge in white, across which in red immortelles ran the following startling motto: "Admit Within Fire Lines Only."

James B. Frazier, who has been chosen by the Tennessee legislature to fill the seat in the United States senate occupied by the late General William B. Bate, was last fall elected governor of Tennessee for the second time. The senator elect had never held public office up to his inauguration as governor, two years since. He was born in Tennessee forty-eight years ago, is a graduate of the University of Tennessee and a lawyer.

His great-grandfather was a member of the first constitutional convention of Tennessee, in 1796, and his father was an apprentice of President Andrew Johnson as judge of the criminal court at Nashville.

While stamping the state during the gubernatorial campaign of 1902 Governor Frazier entered the office of a village hotel, where he discovered a conspirator German seated at a table, writing. Suddenly the Teuton paused in his task, scratched his head, chewed the end of his pen and looked so obviously worried that Mr. Frazier got naturally asked:

"My friend, can I be of any service to you?"

"Yah," was the prompt and relieved reply; "please tell me whether you put an 'g' behind before."

It was several seconds before the affable candidate grasped the man's meaning and gave the desired information.

Baron von Nolken, chief of police of Warsaw, who was injured by a bomb a few days ago, was uniting in the execution of the repressive and brutal policy he was charged with enforcing in the ancient capital of Poland. He took the precaution to keep himself well guarded and usually remained in the central police station. It was only by concealing a plot which involved the sacrifice of others that the revolutionists were able to get at him. By throwing a bomb into a suburban police station at 11 a. m. and seriously injuring six policemen there they succeeded in drawing Baron von Nolken from his concealment. On his way to the scene of the explosion he was attacked by the

bomb thrower who was trying to wait for him. The baron was severely hurt, but it is said the revolutionist would have killed him if it had not been for the fact that the bomb was thrown behind instead of directly underneath the carriage. Baron von Nolken, who was sitting on the side nearest the assailant, received the full charge of the bomb, while his companion escaped unhurt. The coachman was thrown from the box, and the carriage was smashed. Meanwhile the police official accompanying Baron von Nolken saw the bomb thrower and pushed and caught up with him, but the man proved the stronger and ran away.

MINING NOTES.

No Work for Illiterate Mine Boys. (Tamaqua, Pa., Telegram to the Philadelphia Record.)

W. D. Zehner, superintendent of the Lehigh Coal and Navigation Company, has notified colliery foremen to make a canvass of the men in their employ under twenty years of age who are unable to read and write, with the end in view that all unable to do so will be discharged and that in the future none will be employed who are unable to do so. This order will mean the discharge of hundreds of boys.

Barbourville, Ky., July 29.—A new mine is being opened up on the property of John A. Black, just outside this city, by Hammonds & Cottonjinn. They are putting in a track from their mine to the tipple of the Knox Gem mine, which they have leased and will use to load their coal on the cars on the L. & N. siding.

John Colbert was in Madisonville Sunday on business.

Jno. Orr, superintendent of the Shamrock mine, near Providence, was here Friday on business.

Mr. D. B. Baker, who has been cashier of the Citizens Bank at Providence, resigned on last Tuesday, Aug. 1st. He is president of the Webster County Coal Company, whose mine is located near that place and resigned his connection with the bank in order to devote more time to his coal business.

Mr. J. W. Lester, of this place, made a business trip to Madisonville Friday.

New York, July 28.—The North American Company which has closed the deal for the purchase of 25,000 acres of valuable coal land in Western Kentucky has had the land investigated by experts who report that there is at the present time about 10,000,000 tons of bituminous coal available on the property without any additional development work. They also estimate that the entire coal deposits thereon amount to 100,000,000 tons, the 90,000,000 additional being available upon sinking new shafts and further development work.

Supt. Rutland, of the Empire Coal and Mining Co., suffered a painful accident a few days since while riding an auto cycle. The machine became unmanageable and ran into a tree at a higher speed than was comfortable to the rider. Mr. Rutland was thrown and pretty well bruised. No bones were broken but the injuries received placed him on the disabled list for several days.

Spottsville people think the coal mining property of that section is to soon undergo a change in ownership and that the Spottsville district will remain the chief coal producing section of Henderson county, says the Henderson Gleaner. It is said by the people in Spottsville who are supposed to have access to inside information that the Arnold Coal Company of that place has been bought by a company having its home office in Indianapolis, Ind., and that the change in ownership will take place in the near future. Besides that the people of the Green river town expect a Pennsylvania company which owns several hundred acres of coal rights southwest of Spottsville to begin operation soon.

TUBERCULOSIS PREVENTABLE.

Indulgence in things harmful is only more blamable than ignorance of common means to avoid danger. There is so much enlightenment afloat in these good days that leads to right and sanitary living, the preservation of health and the prevention of disease that even the ignorant should profit thereby. One of the most hopeful signs along these lines is the united effort for a spread of knowledge for the prevention of tuberculosis.

There is in Louisville a recent organization for the purpose of spreading this knowledge and this movement has grown already to large proportions.

We urge all our readers to read and preserve the following utterance of an eminent physician who has made a close study of this disease that can and should be controlled:

"Tuberculosis is not only a distinctly preventable disease, but is much more readily and certainly preventable than most of those diseases usually called contagious, for the sole source of infection is contained in the discharges which may be readily destroyed at the time of exit from the body."—Dr. Hernan M. Biggs.

The next thing the progressive city of Earlington needs is a public drinking fountain for man and beast. The Bee arises to say that this has for some time been on its mind, and these days are surely dry enough for the suggestion to take effect upon a public usually indifferent to the question of drink. Man can care for himself but it would be a humane act if the city council would erect a public drinking fountain at a convenient and central location where the careless or hurried driver of horses could water his team without loss of time. Many a driver does not take the time to water his horses when he has to hunt water. It would be a public spirited act. Let's have a drinking fountain.

BLEEDING Russia now faces future starvation. The crops are reported a total failure in many districts and the government has been officially advised to prepare to cope with a famine far greater than those of 1891 and 1897, when the American people succored the stricken Russians with ship loads of wheat. So many Russians have died with their boots on that, if other military drafts are made, only the women and children will be left to die of starvation.

The work of State Inspector Hines, under the direction of Auditor J. W. Hager, in uncovering the methods of graft at the hands of certain "Auditors Agents," in the conduct of back tax collections, must meet with approval of Kentuckians generally. The methods of some of these "Auditors Agents" and their assistants have been infamous.

A WORD WITH ADVERTISERS

Many an advertiser has quit just when his advertising train was beginning to move—simply because he ceased shoveling the coal in and stopped to look at some advertising express thunder by under full head of steam. He forgot that it took time and lots of coal and labor for the other fellow to get sufficient steam up to overcome inertia and get a 60-mile-an-hour move on him. Did you ever know a quitter to become a successful advertiser?—Agricultural Advertiser.

LONG LEASE

Given to Milton H. Smith and Wife to L. H. & St. L. Railway.

Milton H. Smith, president of the L. and N. railroad, this morning filed a lease in the County Clerk's office at Louisville, by which he conveys for a period of 999 years the property lying between Thirteenth and Fourteenth streets and Market and Main streets to the L. H. & St. L. railroad. This property during the past few months has been purchased piecemeal by the Columbia Trust Company for a freight terminal of the L. H. and St. L.

It was deeded over yesterday to Mr. Smith from the Columbia. In neither the lease nor the deed does Mr. Smith appear in his official capacity as president of the L. and N. The lease is signed by himself and wife, Mrs. Annette M. Smith.

The lease provides that for the use of the ground the L. H. and St. L. shall pay to the lessor an annual rental of \$11,000 in quarterly installments for the first five years of the term. Beginning with July 1, 1910, and for the remaining 994 years or the lease the lessee shall pay an annual rental of \$9,280, payable quarterly. At the expiration of the lease, July 1, 2004, the lessee is given right to renew it on the same terms forever thereafter. The lessee furthermore agrees to pay all charges, taxes, rates, etc. The lease is made effective under the United States and the State of Kentucky "and their political successors if such there be."

BABY'S FACE MASS OF SORES

Ears Looked as if They Would Drop Off—Body Entirely Covered with Humor—Three Doctors Could Not Cure—Child Grew Worse.

CURED BY CUTICURA IN TWO WEEKS

Mrs. George J. Steene, of 707 Coburn St., Akron, Ohio, tells in the following letter of another of those remarkable cures of torturing, disgusting skin humors daily made by Cuticura Soap, assisted by Cuticura Ointment, after physicians and all else had failed: "I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was eaten away, her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of soap and box of ointment the sores had all healed, and my little one's face and body was as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents, which is all it cost us to cure our baby, after spending many dollars on doctors and medicines without any benefit whatever."

SLEEP FOR BABIES Rest for Mothers.

Instant relief and refreshing sleep for skin-tormented babies and rest for tired, fretted mothers, in warm baths with Cuticura Soap and gentle anointing with Cuticura Ointment, the great skin cure, and purser of emollients.

FOUND SON IN PENITENTIARY

After a Year's Search Roy Courtwright Found by His Father in Missouri Prison.

Jefferson City, Mo., Aug. 2.—At first believed to have been kidnaped, then mourned as dead, Roy Courtwright, a handsome, rollicking youth of 17, whose sudden disappearance from his Kansas City home a year ago prostrated his parents and completely baffled the police, has turned up as an inmate of the Missouri penitentiary. Hospitals, orphan asylums and other institutions that might possibly have furnished shelter for the absent boy were visited but to no purpose, until at last the prisons were searched, and the son was found.

It seems that the youth ran away from home to have a good time, and was arrested at Springfield, Mo., charged with stealing four sweaters. He denied the theft, alleging that they had been given him. He also told the judge that he was 17, but that official did not believe his story, and gave him two years in the penitentiary. Under the law of Missouri no person under 21 can be committed to the penitentiary. Strange friends have taken the matter up and the governor will issue a pardon.

YOUNG KANSAS FRATRICIDE

Was Beating Mother and Killed His Brother When Latter Interfered.

Fort Scott, Kas., Aug. 2.—Vern Meadows, 15, shot and fatally wounded his brother Lee, 27. The boy, it is alleged, was beating his mother because she would not give him money with which to go to a circus, when the older brother interfered. Vern grabbed a shotgun, fired and ran away, later giving himself up. The load of shot tore away half of the wounded man's abdomen. The dying man requested that his brother be not prosecuted.

Prof. Joseph Lodi, of Milan, Italy, the discoverer of the iodine cure of tuberculosis, in discussing his new method, said: "It is a well known fact that iodine can immediately convert itself into vaccine and become a virus of the most active and deadly kind. It follows from this that a person affected with tuberculosis should be vaccinated with iodine by himself and in himself his own curative serum, ready for healing purposes when this iodine can circulate integrally in the blood. It is precisely this which I have obtained by my new method."

The reason the "electric fan cold" is so often accompanied by sore throat is, according to a doctor whose location brings him many such cases, that the draught made by the fan carries so much dust with it. "The fact is," says this authority, "that electric fans are quick and the fan is not fresh air, unless the fan is backed up against an open window. When operating in an inside room or in similar places, where it is most appreciated, the fan uses the same air over and over and this air gathers up and keeps in motion all the available dust."

Frequent hand-to-hand conflicts in the Russian-Japanese war, between troops armed with the high-powered rifles which were expected to banish the bayonet and reduce war to long range shooting, have upset the theories formulated by experts and demonstrated the usefulness of cold steel as an instrument of wholesale homicide. Therefore, distribution of the new Springfield rifle has been deferred, and the experts of the war department are considering the question of adapting a practical bayonet to the weapon.

Stop That Cough.

When a cough, a tickling or an irritation in the throat makes you feel uncomfortable, take Ballard's Forehead Syrup. Don't wait until the disease has gone beyond control. Mr. and Mrs. J. A. Anderson, 351 W. Lexington, Ky., write: "My wife and I have used your Forehead Syrup for several years; it always gives immediate relief, is very pleasant and gives good results. It is sold by Jno. X. Taylor."

Here the other day scratched up \$10.00 in notes. I had a considerable paper which was stolen from the Prairie Dog Bank in a robbery two years ago. The papers had evidently been brought to Harbison, Wm., and hidden under the floor of his room. He had been told that they were in his room, but they remained till unearthed and scratched into the street beside the elevator.

Was in Poor Health for Years.

Ira W. Kelley, of Mansfield, Pa., writes: "I was in poor health for two years suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of many a man's health of others." Refuse substitutes.

Sold by Jno. X. Taylor.

The new 20-caliber tripod-mounted automatic gun was exhibited recently at the Springfield armory before a board of army officers. The gun weighs 113 pounds, and the tripod (including swivel, base and jacks) weighs 30 pounds. The bullet, powder charge and velocity are U. S. G. standard for the new Springfield rifle. The rate of fire is 700 shots per minute.

What Olive Oil Will Do.

A tablespoonful of olive oil day taken internally, will help liver trouble and indigestion.

It is also healing for throat or stomach catarrh.

Serve it frequently in salad dressings, where it will be both an appetizer and medicine.

Mixed with turpentine, then rubbed on the chest, and back, it prevents cold; mixed with camphor, then applied to the throat, it cures soreness; then applied to the throat, and chest, it relieves the most obstinate cough.

While a recent foggy prosecution was in progress in a Washington (state) court the accused calmly reached over, took the forged document from the table and ate it before the astonished court officials recovered sufficiently to interfere. Thereupon the prisoner's counsel promptly untied the discharge, on the ground that there was no evidence against him. It was certainly a most effective defense.

The boll weevil is hardly a companion in destructive propensities to the grass weevil that follows after and takes charge of the crop.

Was Wasting Away.

"I had been troubled with kidney disease for the last five years," writes Robert H. Watts, of Salem, Mo. "I had flesh and never felt well and was treated with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and after two bottles completely cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. At this time to the kidneys at once by using Foley's Kidney Cure.

A curious instance of the effect of the shape of the ground upon the wind blowing over it was recently witnessed by Mr. Bates as he was experimenting with kites in France. When a north wind floated the kite the latter kept its balance easily, but when the wind came from the south or southwest the kite ploshed and bobbed in a very strange manner. The explanation was furnished by the character of the surface over which the wind had passed.

TOWN TOPICS EDITOR OUT

Col. Mann Dismisses Charles M. Wayne For His Connection With "Sunset."

New York, July 31.—Col. W. D. Mann, editor of Town Topics and the father of "Pads and Pancies," has dismissed his editor-in-chief, Charles Ricker, Wayne for his connection with another firm while holding his position with Town Topics. Mr. Wayne's discharge came after he had resigned from the other firm which was purporting to be getting out a publication entitled "America's Sunset." Charles Bohm was put in Mr. Wayne's position.

The change in the staff of Town Topics fulfilled the promise which Col. Mann had made here, that if he found any of his employees had been connected with any other publication he would get rid of them.

FINE NAVY SAYS ROSS

President Healed By Evans Washburn, and His Heart Swelled With Pride.

Oyster Bay, July 29.—After visiting the Sea Breeze hospital for the cure of bone tuberculosis in children, President Roosevelt's yacht steamed by the cable lying at anchor on New York, and gave him such a swell of patriotism that he dictated this statement to his secretary: "I feel that the great 'On the way home the yacht went up the Hudson, and when we passed the battleships I signaled them not to salute, but I did want to see the formidable squadron, which I believe to be, collectively and individually, as fine a fighting fleet as the finest in the world. I felt that the president should be proud of that splendid fleet, splendidly officered and manned, as it is in the Hudson."

THE VETERANS WILL APPEAL

They Recent Being Classed as Paupers in Missouri.

Raising Funds to Carry the Case to the Supreme Court of the Commonwealth.

St. Louis, July 30.—An appeal to the supreme court of Missouri will be taken by the Grand Army of the Republic of Missouri, acting in conjunction with the United Confederate Veterans, from the recent decision of Judge W. N. Evans in an election case at Rolla, Mo., wherein he held that inmates of the state federal soldiers' home at St. James, Mo., are disqualified as voters under the eight section of the eighth article of the state constitution. It is estimated that the cost of the appeal will be in the neighborhood of \$500, and Department Commander Henry Fairbank has issued a circular letter to the G. A. R. posts in the department of Missouri, appealing for contributions. The funds will be sent to Congressman A. P. Murphy, of the Sixth district, who will represent the applicants.

In making the appeal, Mr. Fairbank emphasizes the fact that the G. A. R. is in no manner concerned as to which party wins in the coming election case, but states that the decision of Judge Evans is being contested for the principle for which they fought and died. He pointed out that the constitution was framed many years before a soldier's home was established. Commander Fairbank, who was the first president of the St. James home, before it was turned over to the state, declares that such action would be a violation of the constitution had dreamed that the inmates would be classed with paupers. The home receives an annual appropriation from the federal government, so that it is only partly supported by the state. Mr. Fairbank expressed his gratification that the confederate veterans would assist in the fight.

THESE are days of simplifying and systematizing in all kinds of work. The printing office bears frequent proof of improved methods and new systems for making original records in a thorough and labor saving manner. There is no excuse for making two strokes of the pen where one will do, especially where one will do better, as is the case in most instances where the new systems are introduced. The printing office is the distributor of news and of indispensable publicity for the merchant, the manufacturer and the business man. It is also the originator many times and the manufacturer always of labor saving forms that help the business man to greater time economy and a better profit. The Bee has a good record in the production of this class of work and stands ready to serve new customers. Look over your business methods and see if you cannot economize the labor of your office by a change of methods and the introduction of new forms adapted especially to your needs. Then call in the aid of The Bee Printery to execute your ideas. We will make just what you want and there will be nothing to complain of in workmanship or material, which we will take pleasure in adapting to your particular use.

THE GRIP OF THE YELLOW PLAGUE

It is Not Yet Loosening Its Hold at New Orleans.

THE DEATH LIST INCREASED

Cases are Reported at Shreveport, La., and Montgomery, Ala., the Former Being a Drummer from Chicago.

New Orleans, Aug. 2.—Following is the yellow fever record since former report: New cases, 42; total cases to date, 346. Deaths, 6; total deaths to date, 68.

The day, as shown above, witnessed an increase in the number of deaths from yellow fever, a fact that was not unexpected in view of the high temperature that has prevailed the past two days. There was, however, the usual large preponderance of Italian names in the list, both of new cases and deaths, which has characterized the reports since the time when the fever was first officially announced as existent here. In spite of the increased mortality, the health authorities exhibited no concern over the situation, contending that with the accumulation of cases there must be expected an increase in fatalities to maintain the average death rate of the fever. It is still possible to trace all the new cases that are appearing to the original focus.

No reports have come of cases outside of New Orleans which might have developed from Italians who scattered when the health boards first started in to treat the disease. So vigilant have been the local authorities in all the small towns of Louisiana and the entire state, that it is not believed that many more such cases will be reported. A falling off in port charges has been reported by the dock commission, which controls the city wharves. This is due to the diversion of the fruit traffic, and to the fact that some tramp steamers have quite possibly been sent to other points to avoid detention after leaving here.

A CASE AT SHREVEPORT.

Barney Tracy, a Chicago Traveling Man, the Patient.

Shreveport, La., Aug. 2.—Barney Tracy, a traveling man of Chicago, is in the detention camp just outside the corporate limits of the city suffering from yellow fever. Tracy is no other cases in the detention camp nor any case in the city. The infection has been traced directly to New Orleans, although Tracy spent but a few hours in that city.

When the existence of disease at the doors of the city became known, through an official diagnosis, there was almost a panic, several hundred people leaving on outgoing trains.

A case at Montgomery, Ala., Montgomery, Ala., Aug. 2.—It is officially declared that a case of yellow fever is at the post house here.

A CLASH OF AUTHORITY.

Mississippi Soldiers Said to Have Invaded Louisiana.

Memphis, Tenn., Aug. 2.—Advices from Baton Rouge, the capital of Louisiana, state that a clash between the Mississippi and Louisiana authorities over the quarantine situation is imminent. It is said that Mississippi soldiers, employed as quarantine guards, have invaded Louisiana soil with arms. Dr. Souche, president of the Louisiana board of health, has asked Gov. Blanchard to wire the proper authorities in Washington to intervene at once.

A STRICT QUARANTINE.

Orders Issued by Gov. Jeff Davis of Arkansas.

Little Rock, Ark., Aug. 2.—Gov. Davis has issued an order directing Gen. Harvey, commander of the state guard, to detail as many men as may be necessary to establish a strict state quarantine against all points where yellow fever may exist. The militia will act as guards upon all trains entering the state and at all points where boats may land.

THE YELLOW FEVER FIGHT

Railroads Want the Government To Take Charge of New Orleans.

New Orleans, Aug. 2.—A petition is being quickly circulated here by the various railroads, asking that the fever situation be taken away from the state and city health boards and placed in exclusive charge of the United States government. It is hoped the disagreeable quarantine will be remedied and the military work performed in Havana under the direction of the government will be duplicated here.

Four Persons Drowned.

Duluth, Minn., Aug. 2.—By the capsizing of a small skiff on Swan river, five miles north of Verona, Itasca county, near Ingstrom's landing, Edith Tichenor, Goldie Tichenor, Everet Tichenor and Mrs. J. M. Pogue, settlers of that portion of the country, were drowned.

Found Floating in Cedar Creek. Omaha, Neb., Aug. 2.—The body of Ira Andrews, a prominent attorney of this city, was found floating in Cedar Creek at Collins, a small station ten miles west of Plattsmouth. Mr. Andrews disappeared from his home in this city last Friday.

MAY TAKE IT OR LEAVE IT

Order of Railway Telegraphers Get an Unexpected Rebuff.

The Great Northern and Northern Pacific's Response to Demands for Increased Wages.

St. Paul, Minn., Aug. 2.—Negotiations which have been pending between the Order of Railway Telegraphers and the Great Northern and Northern Pacific railways for some time came to a sudden end when General Manager Horn of the Northern Pacific notified the telegraphers of that system that the company's propositions as to the rate of wages it would pay was final, and they could accept it or leave the service.

The Great Northern officials took practically the same stand toward their employees, thus throwing confusion into the ranks of the telegraphers, who had scarcely expected such a move. The only chance of an adjustment of the trouble rests with President J. E. Hill, who is in New York, and to whom President Perham of the Railway Telegraphers appealed in a telegram, asking that how many men have refused to consider the terms offered by the roads is uncertain. No definite reports have been received at the headquarters of either road.

The order affects about 750 operators and agents on the Great Northern and about 1,300 on the Northern Pacific.

All Operators Grievous. St. Paul, Minn., Aug. 2.—All the telegraph operators of the Great Northern and Northern Pacific systems have been ordered out by President Perham of the Order of Railway Telegraphers. According to the officials of the telegraphers' union, between 1,900 and 2,000 men will be affected by the order.

CZAR FEELS MORE WARLIKE

Approves a Resolution to Continue the War Until the Enemy is Crushed.

London, Aug. 2.—The St. Petersburg correspondent of the Times says: Another imperial telegram, of even a more warlike character than the message lately sent by the czar to the clergy of Orenburg, appears in the Official Messenger. The czar, in replying to an address from Khabarovka, expresses hearty approval of a resolution to continue the war until the enemy is crushed, and, above all, it adds, he will not think of a cessation of territory for the payment of an indemnity.

According to the Russ, an inspired organ, if the Japanese demand a territorial indemnity M. Witte will immediately break off the negotiations. It is the opinion of the official press that Sakhalin is lost to Russia forever. It is also recognized that the possession of Sakhalin places the whole Amur region under Japanese influence.

The Japanese are already establishing a base at Port Caesars for 30,000 men and 72 guns, with the view to occupying the lower territory of Amur river.

The coast of the Usuri territory in Siberia has been practically abandoned to the Japanese.

Wants Methodist Training School.

Central City, Aug. 1.—A meeting of prominent citizens was held here last night for the purpose of devising means of inducing the Methodist Training School, to be located at some point in Western Kentucky, to come here. A commercial club was formed and the following board of directors named: John S. Hobson, chairman; Albert Christian, secretary; John T. May, R. O. Pace, T. Q. Fortney, P. K. Haleberg, W. D. McGilpin, M. T. Cain, S. J. Gish and M. F. Moore, directors. Jno. T. May, W. D. McGilpin and S. J. Gish were appointed a committee to solicit funds and to ask parties having outable grounds to donate a location. This committee is to report the success of their efforts at another meeting to be held next Friday evening at 8 o'clock.

GOSSIP ABOUT THE NEXT HOUSE

Representative Cannon, Confident That He Will Succeed Himself as Speaker.

LOOKING AROUND FOR MEN FOR RESPONSIBLE POSITIONS

Owing to the Reduced Number of Democrats in the Next House, Their Representation on Committees Will Be Reduced—The Committee on Appropriations.

Washington, Aug. 1.—Speaker Cannon is in Washington, and will remain for several days. He is unusually retired. He says that there is no use in talking politics, because there is no politics at this time of interest to follow in the country. He says, of course, the coming session of the congress will be a busy one, because the long session after a general election is always a busy one.

Since Mr. Cannon has been here it is learned that he has a good-sized blacker basket at his home in Vermont avenue filled with requests and suggestions as to the organization of the next house of representatives. Members ask for chairmanships for themselves and their colleagues. Members ask for transfers from their old committee to new assignments. No one questions the election of Uncle Joe to succeed himself, but everyone is guessing as to what he will do with the committee.

There will be some shifting about, some heartaches and not a little bitterness if the speaker carries out his present intention in handling the committee of the next house.

One thing the speaker will have no say in, and that will be to cut down the representation of the democrats on the several committees of the house.

This is due to the fact that the democratic representation in the house was so materially reduced at the last congressional election. Mr. Cannon endeavored himself to the authority last session by the position he took relative to minority representation on the committees. He sent for Leader Williams and told him to submit his list of candidates for places on the various committees, and unless he had some special reason for desiring change he would accept the nominations of Williams. This was so fair and reasonable that Cannon has been heralded far and wide, even by his democratic opponents as the fairest speaker the house has seen for many years, and at the same time he has in no particular let down the bars or relaxed the stringency of Reed rules.

One of the greatest tasks which the speaker has before him is the chairmanship of the committee on appropriations.

Next to the chairmanship of the committee on ways and means this is the most important committee of the house. It is the place Mr. Cannon had when he was made speaker. Because of this he knows the peculiar qualifications a man should possess who holds it.

The one man toward whom all eyes point is Representative Burton, of Ohio, chairman of rivers and harbors committee. Burton is indifferent as to whether he gets it or not. It is said he has one other man in view, a serious consideration, and that is Representative Jim Sherman, of New York, his personal friend, and acknowledged to be one of the best parliamentarians in the house.

Lid Lifters Arrived.
St. Louis, Aug. 1.—Seven men were arrested in raids on saloon in St. Louis county for violation of the Sunday law. In only one case it was found necessary to use force to gain entry to the place where liquor was being sold. A number of arrests were made in the city.

Bicycle Expert Fatally Hurt.
Madisonville, Ky., Aug. 1.—Arthur Willman was fatally injured while doing a bicycle lap at a street fair. He had only been at the business a short time, having a former messenger boy at Terre Haute, Ind.

NEW ORLEANS FIGHTS FEVER

Total Cases Now Reach Into the Hundreds.

Business in the City Practically Suspended and All Join in Effort to Suppress the Disease.

New Orleans, Aug. 1.—Official announcement of yellow fever situation gives the following record: Total cases to date, 304; total deaths to date, 66; total fee to date, 46.

Business in New Orleans is practically suspended, and all citizens join in the effort to suppress the disease. Greenville, Miss., has quarantined against the world.

The Cotton Belt baseball league has closed its season owing to the fever. Railroad traffic out and in at New Orleans is paralyzed.

Prayer went up from the altars of the churches in New Orleans, Sunday, for relief from the plague.

The heat is intense in New Orleans, and people discouraged.

Detention camps are packed and jammed with persons wishing to serve out the five days and get clean bills of health.

A petition is being quietly circulated among the railroad companies, steamship agencies and large business concerns of the city asking the United States government to assume charge of the yellow fever situation in New Orleans, and to handle it as it did the scourge in Havana, Santiago and other places.

The Mississippi people are not willing to accept the mosquito theory. At Edwards, in 1897, people attended the funeral of Sid Chapman, services being held in a small church on a hot day. It proved to be a case of yellow fever, and 75 deaths occurred among those who attended the funeral.

Illinois may quarantine against the south at Cairo.

All towns along the border—that is south of the Ohio river—are preparing to fight the fever if it appears.

Yellow fever disappears at the first frost. There may be no frost at New Orleans before the first of December.

BLOCKADE OF VLADIVOSTOK

When Japanese Plans Are in Full Swing Lincolnton Will Have to Retreat or Be Lost.

London, July 25.—The Tokio correspondent of the Telegraph says Vladivostok is now blockaded by a strong squadron. Powerful Japanese squadrons are watching the whole coast of Saghalien and also the coast of Siberia and Korea.

Information from officers who have returned from Manchuria shows that when the Japanese plan is in full swing, Gen. Lincolnton must prematurely retreat or be absolutely lost.

TAKES DEADLY POISON

Hardy Boettel at Husband, and Dies While Physician Works Over Her.

SAVED BY A WOMAN FROM THE GALLOWS

Believes He "Ought to Have a Chance," Furnishes the Money Hoch So Sorely Needed.

HIS CASE WILL NOW GO TO THE SUPREME COURT

Hoch Was Drawn For Execution, and the Prosecution Was Ready to Start For the Gallows, When the "Real Was Closed" That Saved His Neck.

Chicago, July 25.—At the eleventh hour "Bluebeard" Johann Hoch, convicted wife-murderer and self-confessed multi-burglar, was saved, temporarily, from the gallows by the raising of money sufficient to carry his case to Illinois supreme court.

The death proceeding was forming and Hoch dressed in black, was about to follow his spiritual advisers to the gallows, when "Miss Mary Wilson" and Dr. Montgomery, who are the friends of the man, appeared in the county jail with the money.

The state's attorney thereupon gave his consent to delay in the hanging. Wilson is said to be only an assumed name.

When informed of his narrow escape, Hoch smiled in his peculiar self-satisfied manner, called for a fresh cigar, lifted his feet to a table, and said: "I am only proving my contention that I will not hang."

The records cost \$1,100. Hoch had \$100 and a conditional promise of \$400 additional.

COLORED COLUMN

EDITED BY J. M. GORRICH.

The union picnic that was given by the A. M. E. Zion church and Sunday school and the Mt. Zion Baptist church and Sunday school Saturday and night was quite a success. The committees from both churches and the superintendent of each school deserve much praise for their untiring labors in carrying out the affair with harmony existing between them. Wherever there is union their strength and success.

Rev. H. A. Keeton was taken with a severe hemorrhage early Saturday morning and was not able to attend the picnic. He also had two light nose Monday. We trust that he will soon be up and out.

The Children's Day at the C. M. E. church Sunday was largely attended each service. Rev. Weather's, the newly appointed pastor, was present and added much to its success.

The rally at the A. M. E. Zion church was well attended all day. Owing to several reasons the annual success was not as good as we desired.

Mt. Zion Baptist church will have their picnic Sunday. Rev. B. J. Garrett will preach morning and night. Rev. J. H. Gough at 5 p. m. The public is invited to attend each service.

Mr. and Mrs. Ed. Holland made a flying trip to Hopkinsville Sunday, returning early Monday morning.

On the account of the illness of Rev. Keeton, the pastor of Mt. Zion Baptist church, Rev. C. Carter filled the pulpit Sunday night.

Dr. T. C. Crofton, was in our city Sunday looking after his patients.

Mr. Adam Garrett returned from Ashland, Ky., last week, where he attended the State Grand Lodge of the K. of P's. He reports a pleasant time.

The first anniversary of Gough's Tabernacle Aug. 13 and will continue the day. Let every person attend. This is the first one for this church. The different lodges of Earlington have done much in helping to erect this beautiful edifice for God and His cause. We will name the following club after them:

No. 1. The Odd Fellows Club—Hattie Gray, May Moore, Rosalee Bogger, Amanda Hawkins, Mitty Ray, Lee Childers, Helper.

No. 2. Masonic—Clara Danap, Sarah Osborn, Pearl Childers, Minnie Conch, Josie Dixon; James Dunlap, Helper.

No. 3. U. B. F. Club—Laura Harman, Jane Morton, Nellie Earle, Harriet Prentiss, Rosie Garrett; Doe Nichols, Helper.

No. 4. W. M. of A.—H. A. Collins, Beatrice Herron, Maudy Hargroves, Anne Morton, Josie Earle; John Craig, Helper.

No. 5. Good Samaritan.—Lizette Gough, Anne Morton, Roxie Ward, Ella L. Slaughter, Merrill Radcliffe; J. C. Morton, Helper.

No. 6. K. of P.—L. A. Osborn, Lucy Phelps, Mammie Christian, Pauline Garrett, Mable Childers; Henry Ray, Helper.

These committees have commenced with vim and vigor to make this one ever had. Look out for bills and programs soon.
